AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A method for assigning ~~addresses~~ a unique full digital code address (FDCA) to an online computer ~~computers in full digital code, the method comprising using the full digital code address (FDCA), which comprises~~, the method comprising assigning to said computer an FDCA which comprises:

an online number, said online number comprising the digital number of an established network site, which number is specified by the country or ~~the~~ area;

a telephone number, said telephone number comprising the IDDD code of the country where a computer user is located ~~stays~~, the area code of the domestic DDD of the user's area, and the telephone number of the user's company or home; and

a category number, the category number comprising the digital number specified by the country or area for uniformly demarcating ~~uniformly~~ the business category.

2. (Canceled) ~~A method for accessing the Internet by using the address coding method of claim 1, wherein an E-mail box is capable of being accessed or the Internet is capable of being browsed by inputting to the modem of the computer by dialing up a keyboard of a dial-up telephone or the keyboard of the computer, by linking the corresponding digital code; and by converting it with the dedicated software.~~

3.   (Canceled) ~~The method of claim 1, wherein the FDCA is capable of being interpreted by the dedicated interpreting software into an IP address or domain name, or a Chinese domain name hierarchy system, and each FDCA corresponds appropriately to one existing IP address, or domain name or Chinese domain name hierarchy system.~~

4.   (Canceled) ~~The method of claim 1 wherein, the subcategory number is capable of being directed after the category number by said FDCA.~~

5.   (Canceled) ~~The method of claim 1 wherein, the encrypted digital number is capable of being directed after the online number by said FDCA.~~

6.   (Previously presented) The method of claim 1 wherein, the method not only is capable of assigning a fixed static address to each online computer, but also is capable of assigning a dynamic address to any temporary online computer.

7.   (Canceled) ~~The method of claim 1 wherein, said coding solutions capable of being used to assign the address of the mail box, wherein the address comprises the user name digital number and the domain name of the mail server where the mail box is located.~~

8.   (New) The method of claim 1 further comprising the steps of accessing an E-mail box by inputting the FDCA into a modem of the computer by dialing a telephone keyboard, linking to the FDCA, and converting the FDCA using dedicated software.

9.   (New) The method of claim 1 further comprising the steps of browsing the Internet by inputting the FDCA into a modem of the computer by dialing up a keyboard of a dial-up telephone, linking to the FDCA, and converting the FDCA using dedicated software.

10.　(New) The method of claim 1 further comprising the steps of accessing an E-mail box by inputting the FDCA into a keyboard of the computer, linking to the FDCA; and converting the FDCA using dedicated software.

11.　(New) The method of claim 1 further comprising the steps of browsing the Internet by inputting the FDCA into a keyboard of the computer, linking to the FDCA, and converting the FDCA using dedicated software.

12.　(New) The method of claim 1 further comprising the step of converting the FDCA using dedicated interpreting software into an IP address, whereby the FDCA corresponds appropriately to the one existing IP address.

13.　(New) The method of claim 1 further comprising the step of converting the FDCA using dedicated interpreting software into a domain name, whereby the FDCA corresponds appropriately to the one existing domain name.

14.　(New) The method of claim 1 further comprising the step of converting the FDCA using dedicated interpreting software into a Chinese hierarchy system domain name, whereby the FDCA corresponds appropriately to the one existing Chinese hierarchy system domain name.

15.　(New) The method of claim 1 further comprising the step of assigning a subcategory number following the category number.

16.　(New) The method of claim 1 further comprising the step of assigning an encrypted digital number following the online number.

17.   (New) The method of claim 1 further comprising the step of assigning an address

to a mail box, wherein the mail box address comprises a user name digital number and a domain

name of a mail server where the mail box is located.
